

# PIANOS AND KEYBOARDS

## Grand Piano C Series

Benefiting from improvements in both resonance and expressive control, C series grand's are the product of Yamaha's commitment to detail.

The technically-demanding regulation process that is essential to a grand piano's superior tone is given special emphasis in these instruments. Countless hours have been spent perfecting the hammers, strings, and the balance of the damping mechanism, with the final goal of rendering each and every note faithful to the intentions of the pianist.

C1, C2, C3, C5, C7

## Baby Grand Pianos

With the full resonant tone and range of classic grand pianos, Yamaha baby grand's are an excellent choice for smaller rooms and budgets.

A1, GC1, GC2, GB1

## Upright Pianos

The YUS Series takes upright piano quality and performance to a new level.

The production know-how of the SU7 has created a piano with superior voicing: a superbly crafted instrument with inspiringly rich sound and delicate balance.

The simplicity of the cabinet gives superb acoustics to the subtlest note, and specially designed hammers provide rich tone. And the simple, meticulous design rounds out a piano that enhances the performance of professional and home pianists alike.

## Upright Pianos

Yamaha U Series upright pianos have long been a leading choice for educational institutions, professional musicians and discriminating home pianists.

Thanks to comprehensive redesign, these world-standard instruments are better than ever, with numerous advances in materials and construction. Refined scale designs and components improve tonal performance, while other modifications enhance strength and durability.

## Disklavier

The Yamaha Disklavier E3 combines technology with tradition to open up a whole new world of musical possibilities to explore.

The E3's innovative features help you find your own customized way to relax. When you pick up the remote control, you are instantly ready to enjoy new music over the Internet or listen to an old favorite from your personal CD collection.

The E3 also comes with built-in speakers as well as exclusive Yamaha CD's, allowing you to start listening right away without a complicated set-up process.

## CLP Clavinova

Clavinova CLP Series brings the perfect piano sound to your home or studio. Its Advanced Wave Memory (AWM) tone generation uses multiple samples from a real grand piano to generate every note, and its Graded Hammer (GH) Effect gives each key a natural resistance that increases from the top keys to the bottom keys.

Some models feature the Graded Hammer 3 (GH3) or Natural Wood (NW) Keyboard which render concert grand piano performance that is virtually indistinguishable from the real thing. With a simple control panel and additional orchestral sounds every CLP model is a truly grand piano experience

## CVP Clavinova

With a full 88-note weighted keyboard and versatile functions like dynamic accompaniment styles and recording features, CVP Clavinova offers the complete digital piano experience.

All CVP Clavinova's feature a rich piano sound and exceptional keyboard response, putting musical expression at your fingertips. Each model offer hundreds of orchestral and synthesizer sounds, exciting accompaniment styles and a range of studio quality effects. Many models include a large full-colour display screen, and even built-in karaoke functions.

## YDP Digital Piano

Perfect for beginning students and experienced players alike, the ARIUS / YDP series provides true piano sound and feel. The Graded Hammer keyboards of the YDP-160 and the Graded Hammer Standard keyboard of the YDP-140/S31 make it a true joy to play, both in practice and in performance.

The 3-level AWM Dynamic Stereo Sampling voices deliver remarkably authentic sound. Moreover, the damper pedal includes a half-damper effect, giving you nuanced expressive control over the sustained sound.

Dual voice capability lets you play two different instrument sounds at the same time, while a 1-track song recorder allows you to capture your original musical ideas and performances.

## Electronic Pianos

### **GIGS WERE PLAYED.HISTORY WAS MADE.CP SET THE STAGE.**

Introducing the new standard in stage pianos - the CP series In 1976, Yamaha released the first of the CP series stage pianos. These "electric grand's" became instant classics with their authentic sound and live performance convenience.

Thirty years later, Yamaha celebrates those milestone keyboards by unveiling the latest and greatest in the CP series.

## Arranger Workstations

With a huge range of high quality orchestral and synthesizer sounds and a wide range of performance functions, Yamaha's range of Arranger Workstations meet the needs of both the home and professional keyboard player.

Quality and quantity mark the Yamaha Arranger Keyboards as exceptional value for money. Features include outstanding accompaniment styles, recording options and USB connectivity. Music Database allows the player to select the correct sounds for hundreds of well known songs, and the

## Portable Grand

DGX models offer high quality piano sound, 76 piano-style box keys together with a range of superb keyboard features. These instruments bridge the gap between keyboards and digital pianos, offering a host of benefits to a wide range of different users. Yamaha produce a range of introductory instruments aimed at the more piano focused player.

The DGX series offer a combination of keyboard features, such as accompaniment styles, but also a 76 'box key' keyboard for more piano focused performance.

## Portable Keyboards

The Yamaha keyboard range is all about outstanding value for money. With a wide range of high quality sounds and features for beginners or the more experienced keyboard player, Yamaha keyboards are the perfect choice.

All Yamaha keyboards feature 61 full size keys and many models have a touch sensitive keyboard. Additional features include the Yamaha Education Suite, ideal for beginners to learn to play.
